Special Educational Needs

Marie Delaney

Into the Classroom is a series of short, practical guides that help teachers in primary and secondary school settings to meet the challenges of new teaching tools, techniques, and educational policy, with ideas for implementing them in their classroom.

Special Educational Needs provides teachers with strategies and practical teaching ideas for including students with special educational needs in mainstream language classrooms.

- Gives clear practical tips on planning and classroom management which will benefit all students, not only those with SEN.
- Helps teachers recognise the main types of SEN and address the three key problem areas which affect learning.
- Emphasises the importance of working collaboratively with parents and carers, providing strategies to do this effectively.
- Guides teachers through the use of assistive technology to support SEN learning.
